

Siddhesh Ghag

Software Engineer | Full-Stack | React, Node, Python, PostgreSQL
+91 7045221466 | siddheshghag150@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full-stack Developer who enjoys building end-to-end systems from database design and backend architecture to frontend development and cloud deployment. creating AI-powered products and shipping scalable applications on AWS and modern cloud platforms.

EXPERIENCE

Frontend Developer Intern

Oct 2025 – Nov 2025

OceanLab Technology

Remote

- Designed web interfaces for YC backed clients in Figma and converted them into React and Next.js components.
- Collaborated with teams to maintain consistent UI/UX and improve overall design quality across projects.
- Developed clean, reusable, and maintainable frontend code with focus on accessibility and performance.
- Contributed to branding assets and interface improvements for company products.

PROJECTS

ClauseGuard | *React.js, Python, PGvector, OpenRouter, Hugging Face* ([Live](#))

Apr 2026 - May 2026

- Built an AI-powered contract analysis platform to simplify complex legal clauses and identify potential risks.
- Implemented document upload pipelines, AI-driven clause analysis, and streamlined contract review workflows.
- integrated a RAG-based architecture for contextual clause rewrite suggestions.
- Deployed backend services on AWS EC2 using Docker containerization and NGINX as a reverse proxy.

Affinote | *Next.js, TypeScript, TailwindCSS, Supabase, Razorpay* ([Live](#))

Feb 2026 - Mar 2026

- Built a customizable animated template platform enabling users to personalize and share appreciation pages through unique links.
- Integrated Razorpay payments, Supabase, and Zod-based dynamic validation for secure and scalable workflows.
- Scaled the platform to 900+ paid customers and 1K+ weekly unique visitors.
- Deployed on Cloudflare Workers with Cloudflare CDN for low-latency global content delivery and optimized performance.

EzyExpense | *Next.js, MongoDB, TailwindCSS* ([Live](#))

Aug 2025 - Jan 2026

- Developed a full-stack expense tracking application enabling users to log and manage expenses.
- Implemented MongoDB for scalable and secure data storage.
- Built responsive dashboards and data visualization for expense insights.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL

Frontend: React.js, Next.js, TailwindCSS, Zustand

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: MongoDB, PostgreSQL, Supabase, Neon

Developer Tools: Git, GitHub, Docker, Postman, AWS, Vercel, Cloudflare, Figma

EDUCATION

Ramniranjan Jhunjhunwala College

Bachelor of Science in Computer Science

Mumbai, India

July 2024 – July 2027
